REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 66, 69, 72, 75, 78, 84, 87, and 89.

Muraoka is the closest reference found by examiner, teaches a film thickness measuring section (70) measures the thickness of the wafer before and after the etching during the transfer of the wafer inside the transfer section (60). However, as argued by applicant in the Remarks dated 12/29/05, Muraoka only teaches the wafer is transferred between stations and to hold the wafer **stationary** while measuring measurement is taken and fails to teach a spectral imager configured to detect light reflected from the **wafer as the transfer mechanism is transferring the wafer between stations.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa Q. Pham whose telephone number is (571) 272-2426. The examiner can normally be reached on 7:30AM to 6 PM, Monday through Thursday.
